

## ABOUT MYVIMU

MyViMu (My Virtual Museum) has been established in 2010 as a website for collectors composed of many museums created by individual users. Each one of them is free to set up his own virtual museum and to present his amazing collection to the wide audience.

Collectors can upload photos of their exhibits, describe them with details and organise them into collections. Their virtual museums can be visited 24/7 with no restrictions.

My Virtual Museum has been created with the aim of uniting collecting enthusiasts, explorers and all those out there with a passion for gathering things. There is a place for all of them: those who collect militaries and those who collect fine china, enthusiasts of old photos and mid century design, coins collectors and beer labels collectors... The list is open and always will be.

MyViMu gives also the possibility to connect with other collectors. The website provides a forum and a private message system. Moreover, each collector is free to rate other user's exhibits and to comment on them.
